

# A Convex-Lifting Approach to Reactive Path Planning

November 3, 2025

# Table of Contents

- 1 Comparison: path search methods
- 2 Results in static environment
- 3 Scenario: dynamic obstacles with set interpolation

# Comparison in path search methods

Single path

Greedy path search

Selective path search

# Results in static environment

Selective path search without set interpolation

Selective path search with set interpolation

# Scenario: dynamic obstacles with set interpolation

Selective path search with set interpolation in a dynamic environment
